FRAMEWORK: AngularJS, ExpressJS, Django, Flask, ASP.NET Core, Bootstrap, MVC

DATABASE: SQL and NoSQL - MySQL, SQLite, MongoDB, MariaDB

CMS: Wordpress, WooCommerce

DESIGN SOFTWARE: Adobe Photoshop & Illustrator

OTHERS: GitHub, jQuery, NodeJS, NPM, Dapper, Linq, AJAX, Visual Studio Code, Azure, AWS/EC2

SOFTWARE DEVELOPMENT EXPERIENCE

Coding Dojo, Web Development Student

Seattle, WA – 2017

Completed a 14 week immersive web development program with 1,000+ hours spent learning and developing web applications using Python, MEAN, and C# ASP.NET Core.

Projects:

- + **NewsFeed** (MEAN Stack) – A news application that allows users to post and share stories
 - Designed front-end experience, structured the database and deployed on Amazon AWS (EC2)
 - Developed using JavaScript, MongoDB, Express.js, AngularJS, Node.js, Bootstrap, HTML, and CSS
- + **Ecommerce Store** (C# ASP.NET Core) – Online store with shopping cart, checkout, and add product feature
 - Worked on a team of two where I developed the front-end user experience
 - Developed using C# ASP.NET Core, Dapper, MySQL, Bootstrap, HTML, CSS and deployed on Azure.
- + **Voting App** (C# ASP.NET Core) – A voting application where users post topics to vote on and share results
 - Designed front-end experience, structured the database, and deployed on Azure
 - Developed using C# ASP.NET Core, Dapper, MySQL, Skeleton, HTML, CSS

Freelance, Wordpress Developer

Remote – 2009 - Present

Work with small business and artists to develop their online presence in order to help their businesses grow via their personal websites.

Clients:

- + **AndyZandy.com** – A children's birthday entertainment business in San Francisco, CA
 - Designed and implemented layout for optimal engagement
 - Installed a tracker for successful booking inquiries to track PPC conversions
 - Configured contact form and auto-responder to facilitate easy and automated booking requests

- + **HathaYogaCenter.com** – A yoga studio in Seattle, WA
 - Completely redesigned and rebranded site to reflect the studio’s offerings
 - Setup WooCommerce to allow owners to sell products online
 - Installed and configured an online course allowing owners to create and sell courses online
 - + **ShBangFest.com** – A performing arts festival in Bellingham, WA
 - Designed and implemented layout to accurately portray event
 - Integrated Universe ticketing platform to sell tickets directly from website
 - Installed Facebook pixel to track ticket sale conversions from Facebook ad campaign
 - Integrated Google forms to allow artists and volunteers to apply and allow production team to easily organize applicants
-
